ance Notes on Codes and Abbreviations" appearing at the begin-  
ning of each regular issue of the PCT Gazette.

(54) Title: SURFACE-LOCATED CAMPYLOBACTER JEJUNI POLYPEPTIDES

(57) Abstract: The present invention relates to surface-located polypeptides of Campylobacter jejuni and their use in vaccination against Campylobacter. The invention furthermore relates to the use in vaccination of polynucleotides, expression vectors, recombinant viruses or recombinant cells expressing these surface-located polypeptides. Moreover, the invention relates to the use of antibodies against the surface-located polypeptides for anti-Campylobacter therapy. Finally, methods for detection of Campylobacter and for identifying anti-Campylobacter agents through the surface-located polypeptides is disclosed.
